FIG. 18

The diagram illustrates a computer interface with two main windows: 'Scheduler' and 'OBJECT FOLDER'.

The 'Scheduler' window contains a table with the following columns and rows:

ICU No.	Master Input	Composite	Composite	Composite	Composite	Composite
	Input-1					
	InputSource					
	Brightness					
	ZoomHor,					
	ZoomVer,					

The 'OBJECT FOLDER' window displays a list of files:

- ☐ OBJECT X 30KB FILE
- ☒ OBJECT Y 27KB FILE
- ☐ OBJECT Z 36KB FILE

An arrow points from the 'ZoomHor,' task in the Scheduler table to the 'OBJECT Y 27KB FILE' in the OBJECT FOLDER window.
